

Add more solar panels to generate electricity

Should I add solar panels to my existing system?

If you add solar panels to an existing system, you can increase your solar electricity generation, extend the life of your installation, and create further savings on utility energy costs.

How do I expand my solar PV system?

Just like solar installers size systems depending on household electricity consumption, the same is necessary for expanding an existing solar PV system. First, start by evaluating the energy bills for the house since the contractor installed the solar panel system. Next, determine if your clients have plans to increase their electricity usage.

Can I add more solar panels if my roof is old?

Do not add more solar panels to your system if your roof is old, it is a leased system, or if you do not have enough roof space for extra panels. Contact your original solar installer to add more panels to your system.

Why add solar panels to an existing solar system?

How do I get more solar panels on my roof?

Working with your original solar installer is the best way to get more panels on your roof. Your initial installer will be comfortable with your system, know which permits you must apply for when adding panels, and what equipment will pair best with your existing system.

Improved Panel Efficiency: Newer solar panels are more efficient, meaning they can generate more electricity from the same amount of sunlight. If you have an older system, upgrading ...

Purchase of an electric car, switch over to electric heating, or maybe just a lack of electricity - there are many reasons to expand your solar system and install more solar panels. In this ...

Today's solar panels generate about 25% more electricity from the same amount of space as panels from just 5 years ago, and an even bigger jump compared to decade-old panels.

If you add solar panels to an existing system, you can increase your solar electricity generation, extend the life of your installation, and create further savings on utility energy costs. If ...
