

# Amazon Solar Power System

How many solar and wind projects does Amazon own?

With more than 500 solar and wind projects globally, Amazon's portfolio is now big enough to power 7.2 million U.S. homes each year. Amazon invested in more than 100 new solar and wind energy projects in 2023, becoming the world's largest corporate purchaser of renewable energy for the fourth year in a row.

Does Amazon have a battery energy storage system?

Amazon has enabled the development of 10 solar energy projects paired with battery energy storage systems to date-representing nearly 1.5 gigawatts (GW) of battery energy storage capacity.

What are Amazon's new solar-plus-storage projects?

The projects include Baldy Mesa and Bellefield, the largest planned solar-plus-storage project in the US, in addition to Amazon's first rooftop solar array combined with a battery storage unit, which was installed at Amazon's San Bernadino Air Hub.

Why does Amazon invest in solar & wind?

"Amazon's investments in solar and wind projects are helping power our operations, while also providing new sources of clean energy to the grid, spurring economic growth, and supporting jobs in the communities where our customers live and work," said Adam Selipsky, CEO of AWS.

ECO-WORTHY 1200W 24V Solar Power System 4.8kWh/Day with 6pcs 195W Solar Panels, 2pcs 100Ah LiFePO4 Battery and 3000W 24V Solar Hybrid Inverter for Home Shed
