Energy storage drivers in Chile include curtailment and attractive differences between daytime and nighttime prices, along with industrial demand for clean power around the clock.

Generadora Metropolitana, a joint venture between Chilean developer AME and EDF Power Solutions Chile, has announced it has commenced construction on the Dune Plus energy storage project in ...

XYZ Storage Technology Corp., Ltd. ("XYZ Storage") recently completed the installation of 68 battery cabins and 34 power conversion systems for its 117MW/262MWh energy storage project in the Atacama region of Chile.

Engie Chile has completed the energization of its 660 MWh Tocopilla Battery Energy Storage System (BESS), while Trina Storage and Atlas Renewable Energy have advanced the 932 MWh Copiapó PV ...

Atlas recently closed \$510 million in financing for its Estepa project in Chile, a hybrid system with an installed solar capacity of 215 MW and two battery energy storage systems.

In March, Elena, Antofagasta Region, Generadora Metropolitana --owned by AME and EDF power solutions Chile-- officially began construction of Dune Plus, one of the largest energy storage projects in Chile.

Solar and energy storage deployment is booming in Chile, spurred on by supportive government policy that has been markedly stable for 15 years. Indeed, the nation leads Latin America in this ...

As of 2024, Fluence has deployed or contracted 1 GW of battery storage capacity for customers across 12 projects in Chile, representing a substantial portion of the country's energy storage capacity.

The new gas station, located in Vitacura, Santiago, is the first in the country to fully migrate to 100% electric energy from renewable sources. By implementing state-of-the-art technology, this space has ...

Chile has achieved a remarkable milestone in renewable energy storage, with battery storage systems delivering 315 gigawatt-hours to the national grid during the first eight months of 2025.
