

Distribution map of wind farms

Find maps and charts showing wind energy data and trends.

Wind turbine map, always up-to-date with more than 300k turbines worldwide. Open-street-map (OSM) provided info boxes with turbine type, manufacturer, rated power, hub height, rotor diameter and ...

Explore 23,000+ wind farms worldwide on an interactive map. Comprehensive database of wind energy projects with detailed information on capacity, turbines, and locations.

An interactive map of over 3557+ Global Offshore Wind Farms showing key statistics, companies involved, the offshore wind resource, cabling infrastructure and vessel locations.

The United States Wind Turbine Database (USWTDB) provides the locations of land-based and offshore wind turbines in the United States, corresponding wind project information, and turbine technical ...

The Global Wind Atlas is a free, web-based application developed to help policymakers, planners, and investors identify high-wind areas for wind power generation virtually anywhere in the world, and then ...

View an interactive map or download geospatial data on land-based and offshore wind supply curves.

Interactive map of wind farms in the US. View the largest projects, track new developments, and explore capacity data across all states.

The Global Wind Power Tracker (GWPT) is a worldwide dataset of utility-scale, on and offshore wind facilities. It includes wind farm phases with capacities of 10 megawatts (MW) or more.
