

Intelligent Communication Cabinet for Canadian Bridges

These enclosures house and protect critical traffic control hardware--ensuring seamless communication, system reliability, and ease of maintenance. From advanced controller cabinets to ...

Rugged communications that keep you movingSiemens solutions can:Traffic - constant, ever-growingTimely information - stay one step aheadUrban communications systemsUrban traffic control - benefits:Interurban communications systemsRoad tolling - benefits:Siemens offers:Bridge and tunnel communications systemsSiemens offers:Security informationGrowing populations mean more vehicles on the road. More vehicles mean greater congestion, longer com-mutes, and an even more pressing need for timely traffic data.

From large cities to smaller communities - the challenges continue to increase. See more on assets.new.siemens

Intelligent Communication Cabinet for Canadian Bridges

controllers is costly and time-consuming. The Applied Information connected traffic cabinet system allows you to wirelessly monitor, ...

The ATCC uses high-speed serial communications, providing modern features, advanced diagnostics, enhanced safety, simplified traffic control cabinet wiring, and reduced traffic control cabinet size.

As a pioneer in intelligent transportation solutions, Econolite sets the standard for traffic control cabinets and traffic signal cabinets. These cabinets power the next generation of smart intersection technology.

Bridges and tunnels require highly available, integrated network communications. Addressing increasing regulatory and safety requirements, Siemens offers communications solutions designed specifically ...

The revolutionary ATC cabinet combines the best of rack mount and serial-based designs to meet the needs of today's intersections. Using smarter, high-density components, the cabinets offer advanced ...

Our proven technologies combined with our creative and responsive approach reduce risk and enable municipalities to optimize their networks and realize enhanced safety and efficiency.

Founded in 1979, Tacel Ltd. has led Intelligent Transportation Systems (ITS) for over 40 years, delivering safer, more efficient traffic solutions across Canada.

a rack mount cabinet assembly. The Rackmount Cabinet allows 170 users the ability to move into a more modern serial based technology while maintaining the familiar features

The intelligent design of the ITS cabinet series provides ample space and convenient modularity for numerous applications. In addition to traffic control, the ITS cabinet is perfect for sign control and ...

Managing intersection controllers is costly and time-consuming. The Applied Information connected traffic cabinet system allows you to wirelessly monitor, maintain and communicate with your signal ...
