

Is it a scam to build photovoltaic panels on rural roofs

Learn how to spot solar panel fraud, avoid predatory contracts, and take action if you've been scammed, with guidance from Prevost Law Firm.

Scams are unfortunately common in the solar industry. Learn more about some of the most likely scams you may face when trying to go solar.

Scammers across the U.S. are going door-to-door, pitching "free" solar energy systems. Many homeowners never get any solar equipment installed; those who do often get shoddy work.

This article explores the most common solar panel scams, provides tips to recognize red flags, and offers guidance on protecting yourself from fraudulent solar companies.

There are different ways to evaluate and vet rooftop solar companies to make sure you're not being scammed. In general, though, I would just point people to EnergySage. It's a good site that...

Remind prospective customers that while tax credits, rebates, and incentives might be available for solar purchasers who qualify, offers for "free" or "no cost" solar panels are scams.

While you are browsing solar power companies, one of them may offer to install a solar panel or solar roof in your home for a small cost or even for free. It's an intentionally misleading...

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll ...

When companies offer photovoltaic (PV) panel leasing programs, they typically install solar arrays on your barn roof or farmland at zero upfront cost. You agree to purchase the generated electricity at ...

Some customers say they were victims of fraud and forgery. This threatens rooftop solar's impressive momentum. Now, some solar companies are working to repair the industry's ...

While you are browsing solar power companies, one of them may ...
