

Large outdoor cabinet for photovoltaic power generation in rural Ankara IP54

Propagation Prevention: Housed in individual IP54-rated metal cabinets designed to prevent fire propagation between units. Modularization and Scalability: The system is flexibly scalable at both the ...

We've been focused on R& D for 16 years, starting with first-generation systems. We have been improving battery management, used new brand batteries, and made products more efficient and ...

Our 200KWh Outdoor Cabinets energy storage system is built with IP54 protection, ensuring it can withstand harsh weather, from scorching sun to torrential rain.

We offer full customization of cabinet dimensions, internal layouts, cutout positions, structural reinforcements, and surface coatings to perfectly match your site needs.

The IP54 waterproof shell makes it perfect to adapt to a variety of indoor or outdoor industrial and commercial application scenarios, such as photovoltaic charging stations, industrial parks, farms, etc.

Combines high-voltage lithium battery packs, BMS, fire protection, power distribution, and cooling into a single, modular outdoor cabinet. Uses LiFePO4 batteries with high thermal stability, extensive cycle ...

Seamlessly switches between grid - connected/off - grid modes, integrates PV/diesel inputs, and offers remote monitoring. Perfect for areas with unstable grids, ensuring continuous power for farms, small ...

Features C4M anti-corrosion and IP54 protection, a split design compatible with lithium and lead-acid batteries, seamless BMS communication, optional air-cooled/liquid-cooled battery systems ...

Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal management, and parallel operation ...

GS energy storage Inverter outdoor cabinet designed for areas without electricity and remote rural areas. Features C4M anti-corrosion and IP54 protection, a split design compatible with lithium and ...
