

Latvia smart photovoltaic energy storage cabinetized low-pressure type

Hanersun has announced the commissioning of a 1.15MWh commercial energy storage project in the Latvian capital Riga. The project, featuring five units of the company's HNESS 230-L ...

It allows for the storage of solar energy generated during the day to be dispatched during peak demand hours or when the sun isn't shining, ensuring a more reliable and flexible power supply.

Work is currently underway on constructing a 50 MW/100 MWh battery energy storage system on-site.

After having completed the first divestiture of a 265 MWp PV solar plant with Latvian state-owned utility Latvenergo in Nov 2024, we have now completed the second utility-scale project at ...

Manufacturers like Stora Enso Latvia now use ESS to lower energy costs. By storing cheap off-peak electricity, they avoid price spikes during production hours--saving an estimated EUR120,000 annually.

Bulgarian energy storage and solar developer Sunotec has acquired the Lazas Solar Park utility-scale solar-plus-storage site, and Bristol-based Aura announced the sale of its ready-to-build ...

European Energy sells 50% of its 111 MW Saldus solar and battery project in Latvia to Sampension, one of Denmark's largest pension funds. The project combines a 65 MW solar PV plant ...

The project is located in the C i rava area of Dienvidkurzeme, Latvia, and plans to construct a 400 megawatt peak photovoltaic power station and a supporting 600 megawatt hour ...

Spanning around 96 hectares in the municipality of Saldus, the project will accommodate a 65-MW solar park and a 92-MWh battery energy storage system (BESS). Construction works are ...

SUNOTEC, the Bulgarian-German renewables specialist best known for building utility-scale PV parks across Europe, has taken full control of the 400 MWp Lazas Solar Park in Latvia, a ...
