

Long-lasting solar-powered container for Swiss hospitals

Our solar-powered refrigerated containers are ideal as self-sufficient solutions for medicine, perishable goods or technical equipment. Our systems are in use 24/7 and have been developed especially for ...

Beyond immediate relief, solar power containers contribute to long-term recovery by providing safe and sustainable energy. They operate silently and produce no exhaust fumes, unlike ...

Das Start-up Swiss Airtainer SA hat sich mit dem CSEM zusammengetan, um intelligente autonome Container zu entwickeln, die imstande sind, Medikamente in einer temperaturkontrollierten ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...

Our line of solar transportable power units (TMSPDC®; Power AnyWhere Any Time®;) provides stand-alone photovoltaic power. These portable units supply AC power just about anywhere the sun shines.

A hybrid solar power system combines the benefits of both on-grid and off-grid solar. These systems are connected to a city power grid, but they also allow for backup power input, typically in the form of a ...

Our industry-grade modular freezer maintains an internal temperature of -18°C, making it ideal for last-mile delivery, remote communities, and food or medical storage.

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The lightweight, ...

Imagine powering a remote hospital, charging electric vehicles at a festival, or running an entire factory using solar energy stored in what looks like a shipping container.

LZY Solar Containers use proprietary folding panel technology to maximize power generation while maintaining standard shipping dimensions. Our systems are faster to deploy, generate more power ...
