

National wind power curtailment and solar power restriction

Issued by Secretary of the Interior Doug Burgum in July, the order expands federal oversight of solar and wind approvals, in line with the Trump administration's efforts to eliminate ...

Across America, local bans, moratoriums and construction impediments are blocking wind and solar energy with increasing levels of red tape. Here's what USA TODAY's analysis found.

The report provides case studies of curtailment experience and examines the reasons for curtailment, curtailment procedures, compensation, and practices that can minimize curtailment of wind and solar.

Figures 3 and 4 illustrate wind and solar curtailment, respectively, in selected countries or areas in the form of C-E maps (correlation maps between energy share of wind/solar/wind+solar and annual ...

For each state, we created an overview of current and past state law on the placement and regulation of wind and solar power, and a list of counties that currently have blocks.

This statute provides the framework for the development of solar energy and wind energy projects on federal lands managed by the Bureau of Land Management (BLM).

President Donald Trump said the U.S. will not approve wind or solar power projects. Trump has tightened federal permitting for renewables with Interior Secretary Doug Burgum now ...

The latest information and the future estimations of curtailment in several countries/areas are summarised, including Ireland, California and Texas in U.S., and Japan.

The extra layer of scrutiny for wind and solar contrasts with actions by the Trump administration to make it easier and cheaper for companies to produce oil, coal, gas and nuclear power.

WASHINGTON -- Today, U.S. Secretary of the Interior Doug Burgum signed a Secretary's Order to more efficiently manage our nation's energy resources by permitting projects ...
