

New independent energy storage project company

The Company has originated and developed a pipeline of 15 GWh of storage across SPP, MISO, ERCOT, PJM and WECC, of which two battery energy storage projects are currently ...

LPO can finance short and long duration energy storage projects to increase flexibility, stability, resilience, and reliability on a renewables-heavy grid.

The US startup Lunar Energy has raised another \$232 million towards its goal of dominating the US home energy storage market.

Explore 10 new grid energy storage companies from 600+ entrants, offering containerized batteries, thermal battery storage & more.

Established in 2011, ESS enables project developers, independent power producers, utilities and other large energy users to deploy reliable, sustainable long-duration energy storage ...

Quidnet Energy, ENBW, and Peak Energy have energy storage projects in the works in the U.S. and Europe. A Texas startup has completed a key test for its long-duration geomechanical ...

We are building a first-in-class team to support rapid and efficient energy storage project development in U.S. markets. We originate and develop stand-alone energy storage projects to accelerate the rise of ...

Form Energy develops and manufactures multi-day energy storage systems based on iron-air batteries. These batteries are capable cost-effectively store energy for 100 consecutive hours ...

Discover the current state of energy storage developers in North America, learn about buying and selling energy storage projects, and find financing options on PF Nexus.

These startups develop new energy storage technologies such as advanced lithium-ion batteries, gravity storage, compressed air energy storage (CAES), hydrogen...
