

# Nordic high-performance energy storage battery company

Nordic Batteries AS, founded in 2014 in Norway, specializes in advanced battery modules, packs, and energy storage systems for industrial sectors including construction, maritime, defense, and power ...

Our battery energy storage solutions are designed, developed, and manufactured in Finland. From inverters to control and protection systems, everything is crafted locally to ensure high-quality ...

Nordic Batteries designs and manufactures high-power and high-energy battery modules, BMS and BESS products. The company bridges the gap between battery cell ...

As the Nordics continue to invest in battery storage, they pave the way for a secure and efficient energy future. The energy company EWII is locating a 30 MW/43 MWh battery energy storage system next ...

Our battery energy storage systems are environmentally friendly and require minimal maintenance. They come in different sizes and configurations, making them suitable for various applications including ...

Hitachi Energy has signed an agreement with Nordic Electro Power (NEPower) to provide advanced power conversion technology for Finland's largest battery energy storage system ...

SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics.

Partner with HST Nordic to deliver reliable, high-performance solar and energy storage solutions. At HST Nordic (559519-9372), we engineer, procure, and construct high-impact renewable energy and ...

Nordic energy storage batteries combine environmental responsibility with technical excellence, making them ideal for global decarbonization efforts. As demand surges, partnerships with experienced ...
