

Norway's distributed intelligent energy storage system

While Norway once aimed to be the "battery of Europe" it has since been overtaken other Nordic countries Sweden and Finland for BESS deployments. Research firm LCP Delta's Jon Ferris ...

We are a proud contributor of sustainable and smart energy supply for northern Senja. By installing local energy storage solutions that will function as energy buffers, we will, together with the ...

Sometimes they're as unpredictable as a Norwegian weather forecast. This is where distributed energy storage becomes the unsung hero - Oslo's answer to keeping the lights on while ...

Our BESS holds immense potential for contributing to Norway's burgeoning clean energy landscape. Upon installation at the EV battery recycling facility, ...

Battery technology is essential to meet Europe and Norway's zero emission targets by 2050, helping to reduce carbon emissions in the energy and transport sectors across the continent.

From advanced storage solutions to nuclear innovation, learn how technological breakthroughs are paving the way for a more flexible, efficient and sustainable energy future.

Our BESS holds immense potential for contributing to Norway's burgeoning clean energy landscape. Upon installation at the EV battery recycling facility, Hydrovolt, it will play a pivotal role in optimizing ...

Norway is at the forefront of energy storage innovation, leveraging its rich hydropower heritage and cutting-edge technologies.

Using disused mining infrastructure, the Oslo system lifts 8,000-ton concrete blocks during surplus energy periods. When demand peaks, controlled descents generate electricity through ...

Battery Norway (Norwegian Battery Platform) is a national industrial collaboration platform focused on innovation and sustainable value creation opportunities, encompassing the entire battery ...

Norway aims to reduce its carbon footprint and transition to a more sustainable energy system. This includes electrifying the transportation sector, investing in battery technology, and ...

Norway s distributed intelligent energy storage system
