

Scalable Discount Offer for Community-Use Photovoltaic Energy Storage Containers

The new incentive offering makes it more affordable for eligible properties to pair storage with solar energy systems, boosting energy resilience for residents while lowering long-term ...

This project identified scalable community models that maximize the economic and environmental benefits of solar photovoltaic (PV) energy systems for low-income multi-family customers.

S-SFA is a newly approved program for low-income utility customers to receive bill credits from participating community solar/storage projects in that utility territory on an opt-out basis.

\$799.00 Off-Grid Living Must-Have: Solar-Powered Energy Storage System (1000W/1500W/2000W) + 100W Solar Panel for Homesteading

The Easiest and Most Affordable Way to Go Solar Community group-purchasing programs for solar energy and battery storage. Together, we shine.

SolaraBox is built to solve project power needs. The system is modular and easily scalable: you can add multiple units to increase output, and it supports on-grid, off-grid, and hybrid configurations.

Streamlined solar and energy storage buying process through the use of a proven cooperative procurement program. Free project feasibility study and savings analysis for any public agency ...

New in 2024, the Low- and Moderate-Income Accessible Community Solar Garden Program (LMI-Accessible CSG Program) provides new opportunities for Minnesotans to subscribe to solar gardens ...

This voucher opportunity seeks to provide communities who wish to benefit from the decarbonization, resilience, affordability, and workforce benefits of energy storage and are interested ...

This presentation builds on a previous analysis of the community solar project dataset, Community Solar Deployment, Subscription Savings, and Energy Burden Reduction (2021).
