

Sofia solar Energy Storage Power Generation Project

AES Bulgaria will explore options for developing a combined 100 MW solar power and battery energy storage project, as well as a standalone 80 MW battery storage project near the capital Sofia to ...

Signed on July 28, 2025, in Sofia, the deal marks a major step in energy transition for Southeastern Europe, combining SUNOTEC's expertise in solar infrastructure with Sungrow's globally acclaimed ...

Specializing in lithium-ion and flow battery systems, this manufacturer addresses critical needs across multiple sectors from renewable energy stabilization to industrial power management.

With the establishment of a large number of clean energy power stations nationwide, there is an urgent need to establish long-duration energy storage stations to absorb the excess electricity ...

By the end of 2025, two large photovoltaic power plants will be built in Moldova, which will increase the total capacity of renewable energy sources by 90 MW. The Ministry of Energy noted that the solar ...

Sofia 2025 Energy Storage Project Signed on July 28, 2025, in Sofia, the deal marks a major step in energy transition for Southeastern Europe, combining SUNOTEC's expertise in solar ...

The project, located near Silistra in northeast Bulgaria, includes the development, construction, and operation of the solar PV plant, along with two overhead transmission lines totaling 6 kilometers. The ...

As global demand for grid stability grows, compressed air energy storage (CAES) projects like Sofia are reshaping renewable energy markets. This article explores bidding strategies, market trends, and ...

Ever wondered what happens to solar power when the sun clocks out? That's where the Sofia Energy Storage Projects come in - they're basically the Swiss Army knives of the renewable ...

Signed on July 28, 2025, in Sofia, the deal marks a major step in energy transition for Southeastern Europe, combining SUNOTEC's expertise in solar infrastructure with Sungrow's ...
