

Solar container energy storage system factory in Puerto-Rico

In July 2025, GSL ENERGY successfully installed a 60kWh high-performance home energy storage system in Puerto Rico

EcoDirect designs and supplies solar + battery projects in Puerto Rico, Vieques and Culebra. Our team has the tools and experience to get your next project designed and delivered.

The project, which will generate enough energy to power 60,000 typical Puerto Rican homes, brings substantial economic and environmental benefits.

The Marañón project consists of two planned solar plus storage facilities, Salinas and Jobos, that will incorporate the most advanced solar and energy storage technologies.

Enel North America and Eaton have completed a 5 MW solar and 1.1 MW energy storage system at Eaton's manufacturing facility in Arecibo, Puerto Rico. The project will avoid approximately ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal operating ...

DEPCOM Power is currently engineering and constructing a combined solar and energy storage facility in Salinas, Puerto Rico. Known as the Ciro One project, the site includes a 90 MWdc solar array ...

DEPCOM Power, a provider of engineering, procurement and construction (EPC) work, is midway through construction on what it has called Puerto Rico's "largest" solar-plus-storage project. ...

The system, which was inaugurated by local government and community representatives on November 1st at the project site in Salinas, is expected to begin operation end of 2024. DEPCOM ...

The planned facilities, located in the municipalities of Guayama and Salinas, include two sites encompassing 200 MW of solar co-located with 285 MW of four-hour batteries (1.14 GWh).
