

# Solar power station in China in Croatia

The Korlat solar power plant in Croatia will be constructed by Chinese companies SDEPCI and Norinco International. Its nameplate capacity would be 99 MW, with a grid connection of 75 MW.

As Croatia's largest photovoltaic project to date, the Korlat 75MW PV project is expected to generate 165 million kilowatt-hours of green electricity annually upon completion, meeting the electricity ...

The project, located in Korlat, a small settlement within the city of Benkovac in Zadar County, will be constructed by a Chinese consortium, consisting of China's Norinco International Cooperation Ltd. (Norinco ...

Once completed, it will be the country's largest solar power plant, marking a major step forward in Croatia's clean energy ambitions. The project is being developed by China Northern...

The consortium of two Chinese companies has been selected for the construction and commissioning of the Korlat photovoltaic power plant, with the project set for completion by April 23, 2028.

The mayor of Benkovac, home to the largest solar power plant in Croatia, has praised the Korlat photovoltaic project as an important step in promoting local green development, creating job opportunities, ...

The development of solar power plant (SPP) Korlat started in 2019 recognising a significant potential of the location, which was being prepared for the construction of Korlat wind farm (WF) at that time.

In a significant leap for Croatia's renewable energy ambitions, a consortium of two Chinese companies has been awarded the contract to build and operate the 99 MWp Korlat solar power plant.

The groundbreaking ceremony for Croatia's largest photovoltaic power project, to be constructed by Chinese companies, was held Thursday in Korlat.
