

# The reason why the United States shut down the wind and solar complementary communication base stations

The Treasury Department unveiled rules that make it harder for wind and solar projects to claim the tax credits that are being phased out under the OBBBA. The changes are in response to ...

The Interior Department said it was canceling the Biden administration's approval of the 1,000-megawatt Lava Ridge wind project in Idaho, citing legal deficiencies and community opposition.

New wind and solar power installations, and the cheap, clean energy they provide to America, may not survive the Trump administration.

Despite the Trump administration's wide-ranging attacks on renewables like wind and solar power, the clean-energy industry is on pace for record growth this year, according to ...

President Donald Trump has launched an unprecedented attack on wind and solar power as he seeks to reshape the US energy landscape and reverse the green agenda put forward by his ...

These are among the major clean energy investments now in question after Republicans agreed earlier this month to quickly end U.S. subsidies for solar and wind power as part of their ...

But the wind farm soon became a casualty of President Trump's efforts to slow -- and sometimes revoke -- federal approvals for wind and solar projects.

President Trump has launched a sweeping campaign to dismantle renewable energy progress in the U.S., favoring fossil fuels and imposing new restrictions that threaten solar and wind...

On his first day in office, President Donald Trump signed an executive order that paused all federal wind permits.

Washington, D.C. -- Congresswoman Julie Fedorchak (R-ND) spoke on the House Floor to highlight ten reasons why we must phase out tax credits for wind and solar energy.
