

# Trina Solar photovoltaic panel installation advertisement

Who is Trina Solar?

Trina Solar is a global leader in the field of solar PV modules, solutions, and services. The company, founded in 1997 as a pioneer in solar systems, today stimulates the development of the smart energy sector along with installers, distributors, utilities, and developers around the world.

Does Trina Solar have a license?

No license is granted by implication or under any patent or patent rights. Trina Solar SPV modules produce the most power when they are pointed directly at the sun. For installations where the SPV modules are attached to a permanent structure, the SPV modules should be tilted for optimum winter performance.

What is Trina energy IoT?

In 2018, Trina Solar launched its Energy IoT brand, establishing the Trina Energy IoT Industrial Development Alliance with leading companies and research institutes. This initiative founded the New Energy IoT Industrial Innovation Center, demonstrating the company's commitment to smart energy solutions beyond traditional solar panels.

Is Trina Solar a good choice for large-scale solar projects?

Market Leadership with Scale: Trina Solar has established itself as a top-3 global solar manufacturer with over 205GW of cumulative shipments and operations in 100+ countries, demonstrating the scale and reliability that makes it a Tier 1 bankable choice for large-scale solar projects in 2025.
